Shipide

Pitch Deck - EN

Introduction

Shipide in one minute

We unlock untapped profit by reducing your shipping costs. Simply put, your parcels continue being shipped with Bpost, but at better negotiated rates enabled by our platform.

We are an authorized Bpost partner.

Pricing

What’s the price?

0,00€.

There are no hidden fees, no lock-in commitments, and no downside to taking advantage of this opportunity.

Our Method

How?

1

Our carrier partner offers better pricing when shipping volumes increase.

2

We pool volumes across our customer base so everyone benefits from lower negotiated rates.

3

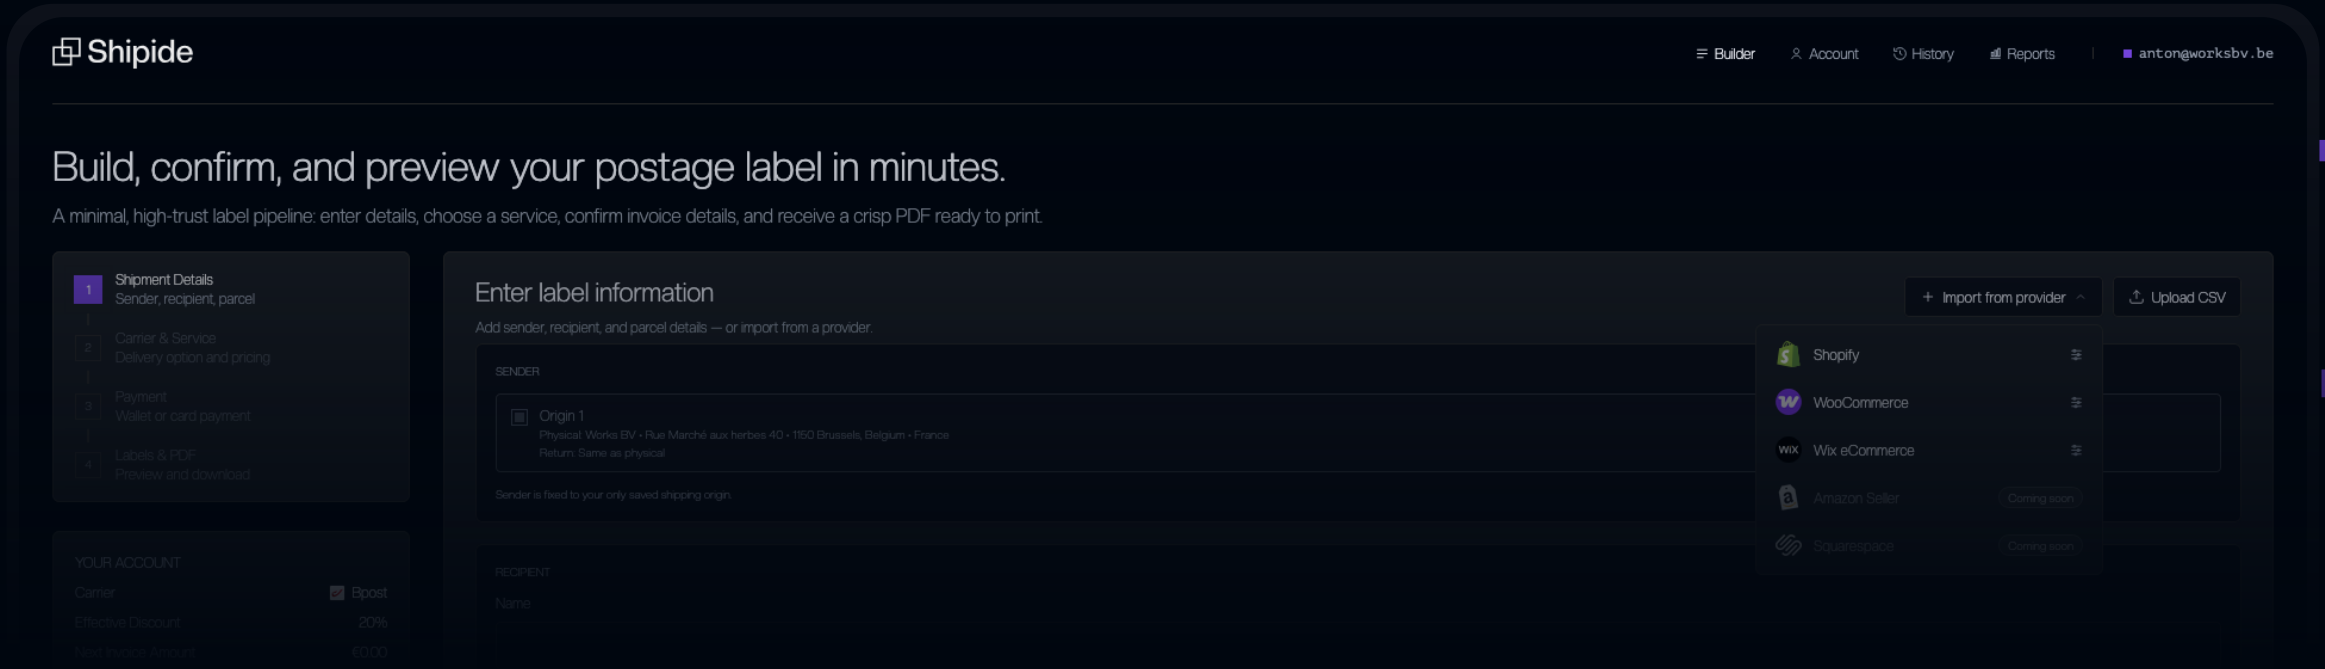
We add you to our private pool of selected senders who are already benefiting from savings.

Shipide Portal

The platform

Create your shipments directly in our portal. Upload orders via CSV or connect seamlessly with your preferred platform for a faster workflow. Available in English, Dutch, and French.

WooCommerce Shopify Wix eCommerce



What we'll need

Getting started

To get started with us, we'll need to know:

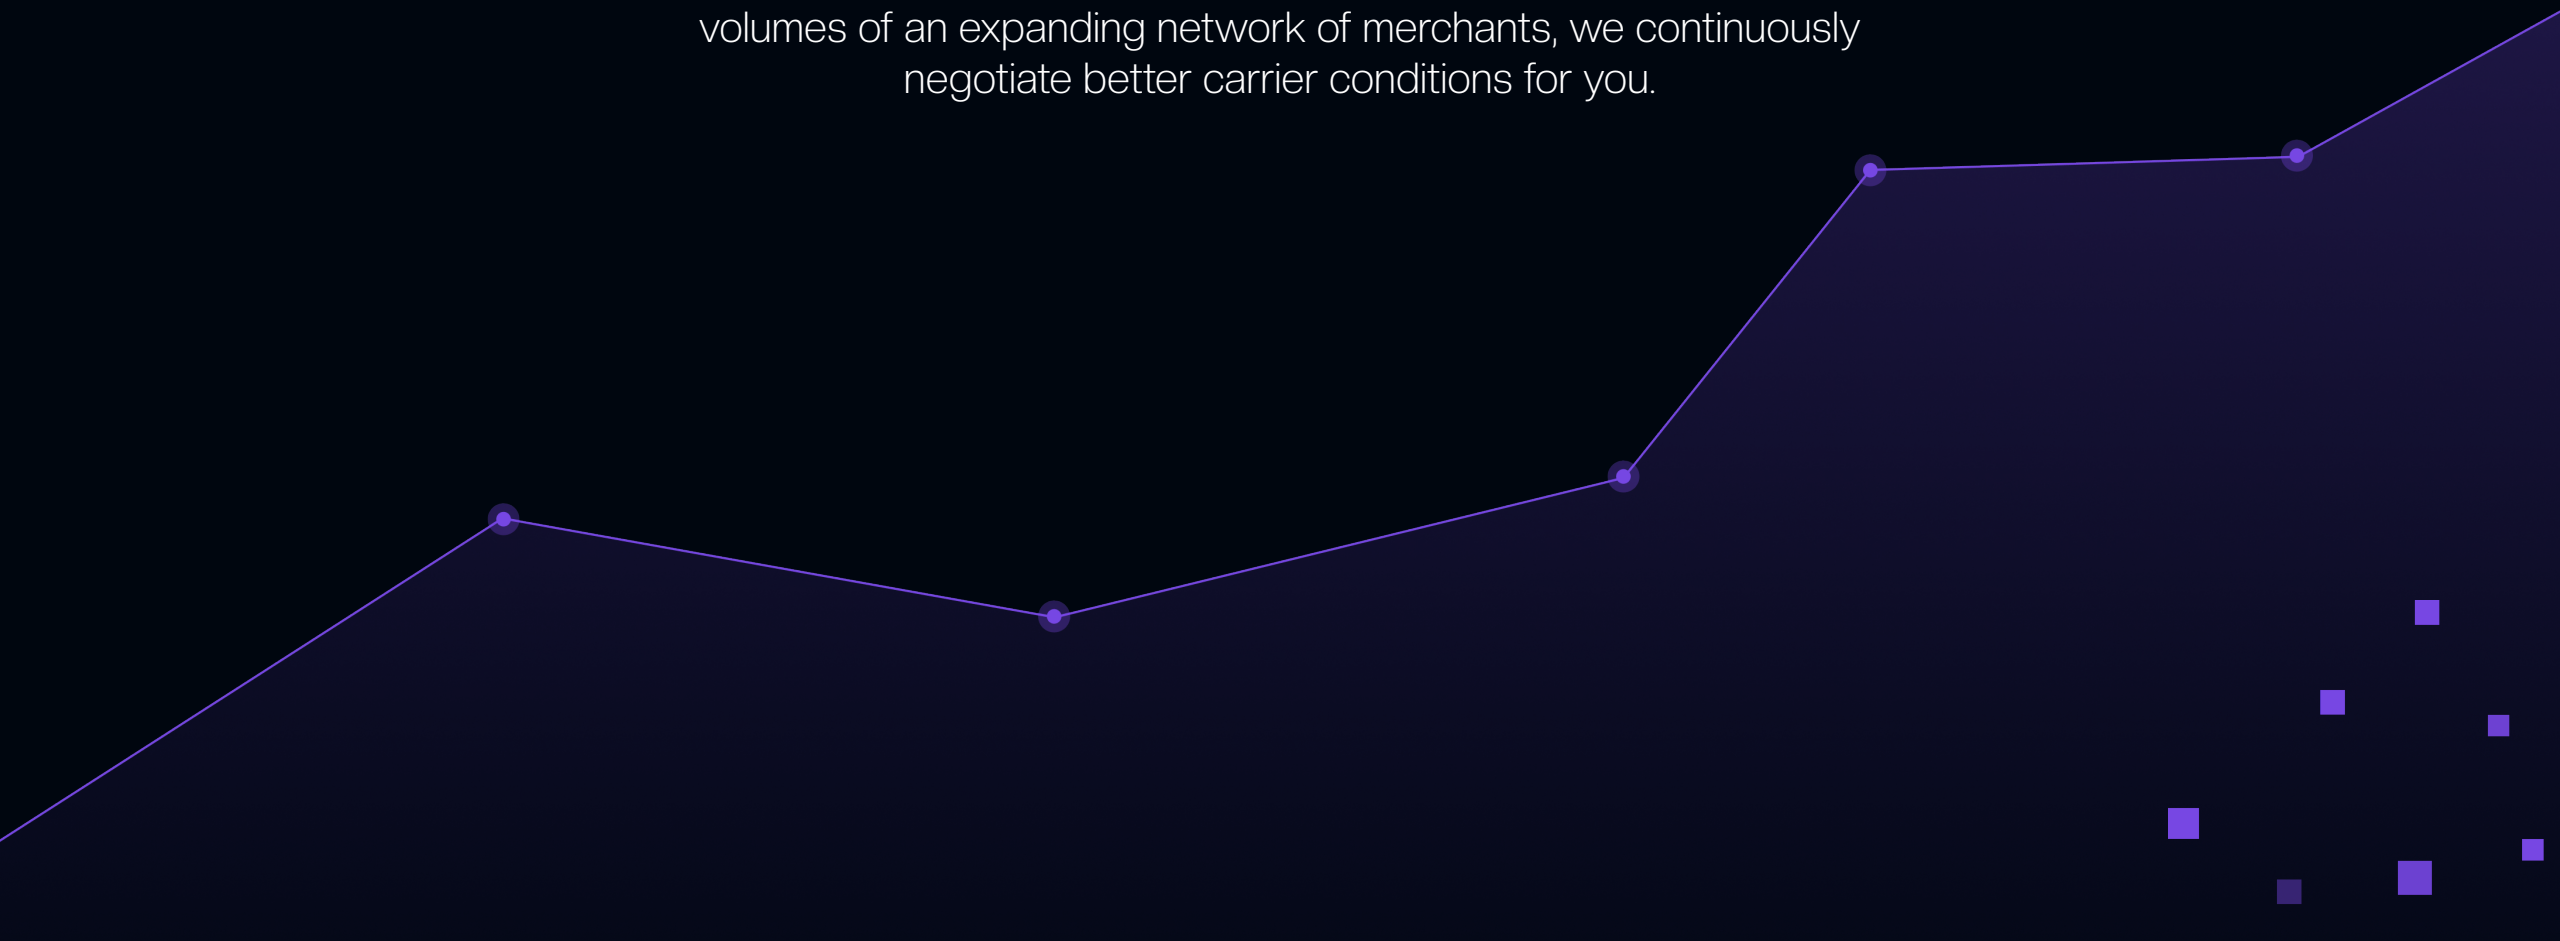
Your Volume	Tell us your average number of parcels shipped per month.
Some Data*	We'll ask for an extract of your Bpost shipments from your highest-volume month.
Patience	Integration into our pooled shipping program typically takes 2–3 months.

No worries, we don't need the names and addresses of your clients! Useful fields include date, origin postcode, destination country + postcode, weight, dimensions, and service type, though not all are required – however, the more the better. All data is handled in line with GDPR.

Win-Win

The best part?

As Shipide grows, your rates improve. By pooling the shipping volumes of an expanding network of merchants, we continuously negotiate better carrier conditions for you.



Join us today

It's as simple as giving the green light to our representative. Once your account is approved, you'll receive an invitation link allowing you to sign up and start saving & shipping immediately.
